

## Summary Report on Feedback 2022-2023

The Students Feedback 2022- 2023 consisting of a set of three questionnaires has been prepared as per the NAAC guidelines with certain modifications adopted so as to suit the needs and requirements of the College. Students belonging to the different streams of Arts, Science, Commerce, Home Science, BCA and B. Com were required to fill the questionnaires online. Data that was collected was then analyzed. As per the NAAC format implemented in 2007, the performance on each attribute is to be graded on a four-point scale. For a particular subject on every attribute, at each point of scale, the responses of the students were summed up. Then these responses were converted into percentages to have uniformity across subjects with varying student strength. These percentage figures were then multiplied by respective points on the scale. “Very Good” was multiplied by 4, “Good” by 3, “Satisfactory” by 2 and “Unsatisfactory” by 1. The average of the above four products so obtained is the score secured on a specific attribute for every subject. The overall rating has been derived analytically on the basis of the points scored on the attributes collectively by a particular subject/ department. The scores obtained by a subject/ department on the given attributes have been presented in tables and columns with bar diagrams indicating the response percentage and rating of every department and teacher individually.

4.00-3.00	3.00-2.00	2.00-1.50	1.50-0.00
A	B	C	D
VERY GOOD	GOOD	SATISFACTORY	UNSATISFACTORY

The process of getting the opinion of the students through the Students' Feedback has not only provided an opportunity for the students to get involved in the teaching – learning process but also instill in them a sense of belongingness and responsibility to the College. The Questionnaire through the sections on the Course, Infrastructure and Teachers' had tried to incorporate a number of parameters with the objective of getting an overall opinion of the students on various aspects related to the teaching and learning process. The Student Feedback Committee in order bring about improvements in the process of attaining students feedback, before starting with the process of collecting students feedback, had submitted to every department the questionnaires and asked for suggestions for improvement. On the basis of the constructive suggestions provided by some departments some questions in the questionnaire were added and deleted. A new attribute regarding the accessibility and approachability of the Non – Teaching staff was added.

The overall response of students from majority of the Departments regarding the Course has been found to be “Very Good”. The overall opinion of the students on the College was “Good”. On the whole with regards to the infrastructural facilities and student centric services provided by the college, the students from all the departments have rated them as “Good”. There has been positive feedback on the performance of the faculty members of all departments. The students cutting across all streams have unanimously felt that the performance of the teachers of the college has been “Very Good”. The students have made use of the opportunity available to them and have provided numerous suggestions for the college administration to look into. Suggestions from the students included up-gradation of canteen, toilet and drinking water facilities, more books to be available in the library. The process of obtaining feedback from the students has not only instilled a sense of responsibility amongst the students but also provided a mechanism for the authorities to get an overall opinion of the students on issues concerning them as students, which will go a long way in bringing about a holistic development of the College.
